In exploring and learning this week...

The Millfield fairies have been busy! The children have loved writing messages to the fairies, building fairy castles, making fairy wands and building stories in our fairy garden. They have enjoyed looking for clues to find out about the fairies and have even become members of the fairy finders society! The children have been particularly helpful in finding out what could have happened to what we think might be a 'dead' fairy. The investigation is ongoing!

Parent reminders

Make sure your child has a named PE kit in school every Thursday.

We hope you are all enjoying finding out about your child's learning on Tapestry. If any of you are having any difficulties or have any questions please talk to a member of the team.

Stay and Read sessions will continue every Tuesday at 2.40pm. Please come along, siblings are welcome.

What we will be looking at next week...

As the children have been very interested in the tooth fairy we are going to be taking a closer look at teeth! We will be talking to the children about how to look after their teeth, having a go at brushing our teeth in school and writing instructions about how to do it. We will be using disposable dentist's mirrors to look in our mouths and will even have a look at some real teeth. In maths we will be using 'fairy' coins to explore simple addition. **Please could your child bring their toothbrush to school on Wednesday.**

If any of you have any objects or books linked to teeth we would love to see them.

The Big Challenge!

Ask your child to give someone in your family clear instructions about how to brush their teeth. Encourage your child to talk in short clear sentences and use words such as first, then, next... You could always film your child talking or even ask them to write them down. Don't forget to share this with us on Tapestry!
